

Sandoval Easy Express, Sandoval County's "first rural public transit service" which started service last April, provides transportation to locations as far as Cuba, Jemez Springs, Cochiti Lake, San Ysidro, and Santo Domingo....but not Placitas.

There are those of us who have an impairment that disables us from driving; can't afford a car or money for gas; want to preserve the environment; or have a vehicle that isn't working. We have children who attend school; and friends, family, and elderly who are dependant on us. We need to get to the Post Office, The Merc, and the Train Station and Easy Express Bus Stop in Bernalillo. We don't feel comfortable driving in the dark, rain, or snow. We want to act responsibly with respect to drinking and driving!

**I am a Sandoval County resident and I want
Placitas included in Sandoval County's Public Transit System:**
